

AMENDMENT TO THE SPECIFICATION

A substitute specification, including both marked up and clean copies as required by 37 CFR 1.125(c), is included in this amendment.

The substitute specification is responsive to objections made by the examiner in an Office Action dated 7/17/2003.

In particular,

- paragraph numbering has been added
- in paragraph [0008], an incorrect patent number has been changed from 5,087,661 to 6,087,661
- in paragraph [0014], the examiner's suggested clarification relative to "microactuation" has been made
- in paragraph [0015], clarification of the term "low-level radiation" has been added to overcome the 35 U.S.C. 112, second paragraph rejection of claim 1
- in paragraph [0015], support for a means-plus-function clause in amended claim 5 has been added
- Numerous corrections of minor errors and formatting changes intended to improve clarity have been made

AMENDMENT TO THE DRAWINGS

As noted by the examiner in the Office Action mailed 10/31/2003, the drawings filed on 9/16/2003 by the applicants were accepted.
